The driving force in heavy-duty cleaning

Product Catalogue

2013

A force to be reckoned with - you won’t look back!
Welcome to Frontline... and our new look catalogue for 2013

We are an established company of 14 years standing.

The colour coding system is designed to help you to find the product category you require. There are again a number of new innovative products that have been included for the first time. These have the potential to take hygiene standards to new levels and are sure to be recognised as best practice in the future. Products like the new Eco Speedair Hand Dryer and more, will make common washrooms more hygienic and pleasant to visit.

You will see....
• An ever expanding range of products which are “Green” in character and practice.
• The Green identifying symbols and bars on the product code boxes make “Green” products easy to identify.
• An extensive range of cleaning chemical preparations.
• Washroom products and new dispensing systems.
• Dispensers for warewashing, kitchen and laundry requirements.
• An interesting range of mopping equipment.
• Trolleys for Laundry, Cleaning, Rubbish Removal, and Hotel Service.
• Mats and matting for a variety of areas.
• Vacuums for every application including Wet and Dry, and Back packs.
• High temperature Steam Generators with the latest innovations.
• Sweepers featuring the outstanding TRS system (see page 75-76).

In fact - gear for every cleaning operation’s requirements and a lot more!

So, please enjoy this catalogue, we hope it makes ordering easy, and remember we are only a phone call away if you need further help. (0800 37 66 85)

Wishing you innovative and efficient cleaning..... Always.

Servicing and Supporting The Cleaning Industry’s Frontline!
GREEN CLEANING IS A PATHWAY - NOT A DESTINATION

What is Environmental Choice?

Environmental Choice New Zealand - ECNZ - are a voluntary, multiple specification based environmental labeling program which operates to international standards and principles. Initiated in 1992 and endorsed by the New Zealand Government, Environmental Choice recognises the genuine moves made by manufacturers to reduce the impacts of their products and provides a credible and independent guide for customers who want to purchase products that are genuinely better for the environment.

The process to get a licence for a product is very strict and required an increased level of transparency in manufacture and as a result the ECNZ logo became a ‘seal of approval’.

What is Environmental Choice Australia?

Good Environmental Choice Australia - GECA - is ECNZ’s comparative body in Australia. Their stringent standards are not as wide as ECNZ however they use the same criteria in most of the specifications operating to international standards and principles.

Please note that ALL Jasol EC range will shortly carry the ECNZ mark as well.

What is Green Seal Approved?

Green Seal is an American nonprofit organisation founded in 1989. They provide science based environmental certification standards that are credible, transparent and essential in a competitive marketplace. This helps manufacturers, purchasers and end users alike make responsible choices.

What is Kemsol Green?

Kemsol Green is a brand and range of products produced by Chemical Solutions Ltd that meets a published set of environmental standards.

Wherever you see this symbol you can trust that this product has passed a set of stringent and measurable standards - they are friendly and safe - both to the environment and to the user.

What is Organic Certified?

Chemicals are certified through Bio-Gro in New Zealand. Organic Certification is required on all products that are used by growers of organic product. This ensures the standard of organic quality is never compromised.
We have a regular structured calling cycle, so please call us if you require a sales representative to visit you.

You are always welcome to visit our trade showroom at 100 Montgomerie Road, Airport Oaks, Auckland 2022 to select from our large product range.

Please find a ready to use order form inside the back cover. Simply photocopy this for future use. If you will require a credit account, copy page 80, fill out and post to our PO Box.

For online payments: 12-3237-0047273-00

Goods will be sent freight free on orders over the value of $350 plus GST within the Greater Auckland area. Out of town deliveries over the value of $500 plus GST are freight free. Pukekohe area is delivered free of charge. Dangerous goods attract specialty rates due to Government regulations. Resellers rates vary according to negotiated freight policies in different national locations.

What is Environmental Choice Australia?

Good Environmental Choice Australia - GECA - is ECNZ’s comparative body in Australia. Their stringent standards are not as wide as ECNZ however they use the same criteria in most of the specifications operating to international standards and principles.

Please note that ALL Jasol EC range will shortly carry the ECNZ mark as well. All bulk Jasol product lines are now manufactured in New Zealand.

ENTRANCE MATS

Classic Carpet Mat
An attractive, durable and easy to clean entrance mat with nonslip rubber backing and bevelled edges. 100% high twist mylon pile
Standard Sizes: 900x600, 900x1200, 900x1500, 900x2400, 900x3000, special sizing available.
Colours: Brandy Wine, Cinnamon, Dark Granite, Forest Green, Midnight Blue, Slate, Stardust Grey.

Scrap Rib Mat/ Trooper Mat
High traffic matting with raised rib profile. Wipes dirt off shoes and is easily cleaned by hosing down. Heavy gauge polypropylene with vinyl backing edged four sides.
Standard Sizes: 900x1500, 1200x1800, special sizing available.

Ultimat
Open blanket vinyl looped construction lets dirt and water pass through the mat surface which stays clean and dry. Easy to clean by shaking out or hosing off. Comfortable cushion surface is ideal for recessed mat areas and doubles as an antifatigue mat. Ideal around pools, showers, entrances and more.
Standard Sizes: 900x1500, Special sizes available.
Colours: Pewter Grey, Royal Blue

Hydrasorb
Extra heavy duty mats for shopping centres, office blocks, public buildings, hospitals, banks and airports.
Standard Sizes: 2000x1500 roll
Colours: Silver

Coral Brush
100% polypropylene pile. Cleated non-slip rubber backing. Very hard wearing matting. 5 year warranty,
Standard Sizes: Available cut to length up to 2m wide.

Starlux Coir
Coir matting with PVC backing. This traditional natural look entrance mat can be cut to suit recessed floor wells. 17-25mm thick.
Colours: Natural, Black, Brown

Food Prep Mat
Constructed from high grade nitrile and designed to withstand oils and grease while providing anti fatigue properties

Just looking... but DID YOU KNOW? You can save on cleaning costs by taking at least 3 steps on a good entrance mat, which will reduce the amount of soil entering your premises by 80 %!
SAFETY MATS

EZ Step
A moulded, closed cell, vinyl foam 9mm thick with a ribbed surface for surer footing. Has bevelled edges to minimise tripping. Standing on EZ Step is like standing on air and it also insulates against the cold. Very economical for large areas such as long production lines, warehouses and packing bays. Cut to length.
Colours: Grey

Comfort King
A moulded foam mat giving amazing durability. Effective static control, better resilience at low temperatures and slip resistant. A unique combination of softness and support. Ideal for assembly lines, work stations, service counters, warehouse picking and packing areas, cashiers and tellers. Todays top value in antifatigue mats. 914mm wide, cut to length.
Colours: Blue, Grey

Foot Wash Mats
Non-slip base with yellow edges for safety.
Standard Sizes:
1000x820
Colours: Black

Cushion Foot Multizone
Great foot comfort ensures anti fatigue properties. Built in connectors for easy joining, plus additional connectors available to join in all other directions. Ideal for industrial work stations, machine and production shops and behind bars. 18mm thick.
Standard Size: 914x914
Colours: Black with Yellow or Black edges.

Odour Control Mat
The urinal floor mat features gel with in built odour kill beneath the surface grid. Lasts up to two months for a pleasant washroom environment.

Bubble Mat
Bubble surface promotes circulation, reduces fatigue and increases worker productivity. Bevelled edges help prevent tripping.
Standard Sizes: 610x914
Colours: Black with Yellow Border

Diamond Plate
A foam laminate industrial antifatigue mat with a tough and durable 4mm vinyl skin surface embossed with tread plate pattern to help prevent slips. The surface is bonded with 9mm buoyant sponge backing. Bright yellow safety borders on both long edges are bevelled to prevent tripping.
Standard Sizes: 600x900, 900x1500 special sizes available
Colours: Black with Yellow Edges.

Ramp Mat
Budget priced work station draining mat, ideal for applications in commercial kitchens, bar areas, food prep and industrial work stations.
Standard Sizes:
900x1500
Colours: Black

Finger Tip
Pure rubber mat with thousands of rubber fingers to remove and provide resilience. Dirt and moisture are trapped by the wall on four sides and can be shaken out. Bevelled borders help prevent tripping. Slip resistant backing. Ideal for outdoor entrances, schools and industrial work stations and more.
Standard Sizes: 813x990, 914x1800
Colours: Black

Cushion Ease Solid
Application as per the Cushion Foot, where draining is not required. Bevelled edges allow carts and trolleys to run onto the mat.
Standard Sizes: 914x914
Colours: Black
Fibre Clean Mops

Fibre Clean Frames & Handles
Plastic mop frame.

Fibre Clean Dust Mops

Fibre Clean dust mops are made from high quality polyester fibres, which have very high abrasion resistance, giving long life and durability. They are designed for commercial machine washing and are guaranteed for 500 washes at 90°C. The secret of these mops is the extra high static charge they create, giving superior dust attraction and holding ability, which effectively ‘bulldozes’ large amounts of soil and collects very fine particles at the same time.

Very Effective On:
- Gym Floors
- High Gloss Areas
- Supermarkets
- Schools
- Hospitals
- Airports
- Resthomes
- Smooth Concrete Floors

- RWTH20 Wide thread head refill, rayon yarn: Code AL491
- WTH20 Wide thread head refill, cotton yarn, 450g: Code AL497

**MS3 by Numatic - Colour Coded!**
For everyday flat mopping. Features telescopic soft grip handle and folding tool that can be used for hang-on or drop-off pocket type heads.
- Hang-on: The mop can be used repeatedly each cleaning session by rinsing or pressing out with a bucket press system.
- Drop-off: Each mop head is used once before being removed for washing and replaced with a fresh one. Great for cleaning a variety of areas without the risk of cross-contamination. Suitable for hospital or healthcare environments.

**Socket Mops**
- No. 20 Socket Mop Refill, cotton yarn, 360 grams: Code AL515
- No. 24 Socket Mop Refill, cotton yarn, 450 grams: Code AL517

- No. 20 Socket Mop c/w 1.2x25 plain wood handle: Code AL529
- No. 24 Socket Mop c/w 1.2x25xplain wood handle: Code AL531

Spray Mop MS2
Mop and bucket in one! Spray mop has 40cm microfibre mop head with a 400ml container which can be operated by hand or foot to apply small amounts of cleaning solution. Excellent for spot cleaning or small hard floor areas.

**Numatic Mop Refills**
Mops are available in ‘40cm Nylostrip’ hang on’ style. Hang on mops are designed to be used for applications where frequent mop changes are required. The loop pile mop head has greater capacity for moisture on irregular surfaces.

**SMM40 by Numatic**
The Spray-Mop Master has a folding tool allowing the quick change of mop heads. Particularly useful in healthcare applications where a cross-contamination risk exists. Also available for larger areas, tiled areas or where greater absorption is required.

www.frontlinecleaningsupplies.com
Carousel
The full colour-coded cleaning mobile that really does allow full control of the cleaning programme in all applications. Hotels, for example, bedrooms one colour, bathrooms another. WC's yet another. A place for everything, and everything in its place. No system could be simpler or more versatile than the Carousel.

| Code: TROLLEYN-2 (left) | 2 x 70 litre bins
| Code: TROLLEYN-3 (centre) | 1 x 70 litre bin, 1 x 4 litre caddy, 1 x 10 litre caddy
| Code: TROLLEYN-4 (right) | 2 x 20 litre caddies, 2 x 4 litre caddies |

Trolley Extra Compact
The ideal choice where space is at a premium, but the need for mopping facilities is essential.

| Code: TROLLEYXC1 (left) | 2 x 6 litre pails, 2 x 10 litre trays, 1 x 18 litre bucket, 1 x 120 litre waste bag |
| Code: TROLLEYXC3 (right) | 2 x 10 litre pails, 2 x 16 litre trays, 1 x 120 litre waste bag |

Hi-Back
The 1812 represents a super compact, truly professionally dual compartment mopping unit with our unique parabolic separator allowing a generous 18 litre front clean water container and 12 litre dirty water section to the rear. The All-Mops press is suitable for a whole range of Kentucky and Slalom-Flat mops, providing excellent performance and results.

| Code: BUCKETB1812 (mop not included) |

Twin Mop Fast Response Mop System
The Twin Mop 2815W has all the advanced features of the standard model but with the addition of an onboard, lidded, 30 litre waste system, full size top caddy and one 5 litre pail. Here you have a full, super compact, total cleaning system.

| Code: TROLLEYTM2815W |

Fast Response Mop System
New style twin mop system without waste bin and a different top storage caddy. Clean and dirty water separation thanks to the clever mop press shute which fills the red bucket. Our smallest, most narrow and compact mop trolley.

| Code: TROLLEYTM2815 |

Mop Press
No springs to rust and break but works on a simple ‘cam’ lever action. Suitable for flat and string mops. Available in blue.

| Code: ASC627492 |
Servoclean Range

The mini - an exceptionally compact service module, with 102L waste bag. Optional All Mpos Press and a canvas bag in desired. The MIOI while compact, has very useful extra storage space for cleaning materials etc. The MAXI is a full size janitorial trolley with plenty of storage space. The ideal partner for the serious cleaning operator.

Servo-Keeper Systems
SKAT20 Series
Without doubt the SKAT housekeeping module is the result of our many years of servicing hotel operations.

The big wheel Structofoam chassis allows for movement inside or out if necessary, not to mention in and out of elevators.

The internal 5 drawer storage system helps keep everything, neat, tidy and secure.

The fully integrated Nite cover is so very simple and so practical that it’s always there when you need it and can be used day or night.

DID YOU KNOW?

- NUMATIC International was founded in 1969 - employed 6 people
- NUMATIC now employ over 700 staff
- NUMATIC have subsidiary companies in 5 countries
- NUMATIC produce more than 4,000 products per day
- NUMATIC now produce over 18,000 Henry vacuums per week
- NUMATIC have made over 3,000,000 Henry’s since his birth in 1989
- NUMATIC is still PRIVATELY OWNED

Henry
Full Twinflo two-stage professional motor giving exceptional performance. Hi-Lo operation allows different power to meet different surfaces and applications, also reducing sound levels for sensitive areas. The 10 metre cable storage and rewind system is a work of art, trouble free and spring free, keeping everything neat and tidy.

A true professional in every sense of the word but never without that famous smile, loved and appreciated by users the world over, ask any Henry owner.

Hetty
Henry’s twin has been born from demand for a growing market of younger professional cleaners. Hetty has all the feature of Henry, plus eyelashes!

**PVT - 390A**
A serious innovation in Vacuum cleaner design, providing ease of handling and the total convenience of one or two lift off storage pails; allowing the user to keep all essential, cloths, sprays, and sponges on board. This allows additional ‘good housekeeping’ to become part of the routine daily cleaning preogramme. The handle is retractable like a suitcase when machine is in use. Large all terrain wheels on the rear are ideal for distances. Specifications are otherwise the same as PVR370A.
Weight: 11kg.
Code: VACPVT390A

**NEW - POWERSAVE FEATURE**
The Powersave option is a new feature allowing the vacuum to start on low; it can then be switched to high if required.

**PVR370A**
Has all the same features as the Henry range plus a larger appetite (15L) and features the new ‘Powersave’ option.
Available in red. NST sound reduction system compliments the Autosave energy conservation system.
Code: VACPVR370A

**CHARLES**
The most useful vacuum to have around. Charles can be up to his neck in dirt and suddenly you'll need him to unblock your sink. He will do this with ease with the twinflo bypass motor and big filters. Aluminium tubes are standard and won't rust. A true wet or dry vacuum!

**WV470-2**
A larger alternative to Charles with twice the capacity and the same high performance. The large transport handle also aids emptying the container.

**VACWV800**
The largest commercial wet pick up vacuum from Numatic. Convenient translucent container styled to keep the weight balance low and liquid level easily seen. Complete with the twinflo bypass motor, spinning ball filter and aluminium tubes.

**WV570-2 / WVD570-2**
Start of Structofoam series wet and dry vacuums. Rugged construction that doesn’t dent, scratch or deteriorate, yet is light in weight and resistant to cleaning chemicals. Comes with twin filters and nozzles and 38mm stainless steel tube set.

SEBO AUTOMATIC XP1/2/3

Upright vacuums are particularly effective in larger carpet areas with an extremely high dirt recovery due to the brush agitation combined with the vacuum. The SEBO AUTOMATIC XP is offered in three working widths to suit any application.

It can differentiate between bare and carpeted floors with the electronic automatic height adjustment so the brush is always set for the optimum floor setting for superior cleaning. The hose with integrated wand is immediately ready for cleaning hard to reach areas.

The SEBO AUTOMATIC XP comes with the 3-step filtration system including the powerful S-class filtration that results in 99.9% effectiveness to 0.3 micron, making it the perfect choice for customers with allergies and asthma.

Integrated accessories are conveniently stored on the machine and can be adapted to the telescopic hose and wand.

- Automatic floor adaptation of the brush
- 3 ply dust bags
- Cord length 12m
- Cloth bag option
- Widths 31cm, 37cm, 44cm

SEBO DART SERIES

The SEBO DART has a unique turning swivel neck and an integrated hose handle. The electric power head SEBO ET is available in two working widths. You can clean commercial areas conveniently and thoroughly, right to the last dust particle.

The 3-step anti-allergy hospital grade filtration system is the perfect choice for customers with allergies or asthma.

- 4 level height adjustment
- 3 ply dust bags
- Working radius 10.5m
- Cloth bag option

SEBO DART 3

The ultra high speed (UHS) floor plisher SEBO DART 3 vacuums and polishes at the same time. This is professional floor care - efficient and effortless.

The UHS floor polisher is also available as a separate extension for the SEBO DART series.

- Automatic height adjustment of maintenance pad
- Integrated dust removal
- Flexible turning swivel neck
- Electrical overload protection
- 3 ply dust bags
- Polisher speed 2000rpm
- Working radius 105m
- Working width 30cm
- Cloth bag option

UPRIGHT VACUMS
**GEORGE 3 N 1**

George is a true 3 n 1 vacuum which is equally at home in the dust, a flood or cleaning your carpet or favourite chair. He comes with all the usual features plus a wardrobe of accessories that include twin hoses, floor tools, filters and extraction nozzles. Wet or dry, carpet or lino, George is your man!

---

**CT470-2**

The bigger brother to George that is set up for wet use providing more operational time between emptying. Ideal for applications where an extraction vacuum is needed on standby or used continually.

**SHARON-BRUSH**

Sharon Brush is a self contained machine with a rotating brush designed for professional cleaning of small carpet and hard floor areas. Brush has adjustable pressure to clean from very dirty carpets to hard floors. Compact design allows for use in very narrow rooms.

Main applications: motels, hotels, offices, shops, restaurants, cleaning or rental companies.

**ELITE-SILENT**

Elite Silent is a self contained machine for carpet and hard floor with manual traction. It brushes, washes and dries a strip of 50cm carpet going forward. At only 60 decibels this is a quiet machine for working around people.

Main applications: cleaning companies, large offices, conference halls, motels and school.

Range of options include instant hot water unit, squeegee for hard floors, upholstery nozzle and carpet wand.

**INSTANT HOT WATER UNIT**

HT1800 is an instant hot water unit to assist deep cleaning of carpet or textiles. Works on the principle of adding heat to the input water. Useful for raising temperature of tank water by letting it recirculate for some minutes. Boiler is protected from heating dry and overheating. Heats to max 70 deg Celcius.

Suitable for models: Sabrina, Sabrina Maxi, Grace, Serena Silent, Elite Silent and Powerful.

**Sabrina Foam**

Foam injection/ extraction machine ideal for cleaning upholstery, textiles and small hard surfaces. The foam humidity degree is adjustable. 2x14L tanks, 2 stage 1000w vac motor, 4 bar spray pressure, 10m cable, 2.5m vac hose length and accessories.

**Maxi Foam**

Foam injector/ extraction machine for cleaning/ sanitising of bathrooms and fixtures. It combines spraying of detergent foam, rinsing and vacuuming. 30L tanks, 2 stage vac motor 1200w, 9 bar spray pressure, 10m cable. 5m vac hose and accessories.
SABRINA
Sabrina is designed for cleaning smaller areas of carpets and hard floors. Ideal for spot cleaning and upholstery work.

Main applications: hotels, motels, resthomes and cleaning companies.

Code: VACSABRINA

<table>

LoLine Polisher - POLNLL332
The Loline range of low profile floorcare machines has been developed to meet both the growing demand and need for a choice of models that are smaller in size, lighter in weight, compact and convenient in storage whilst, at the same time, being quick and easy to use without loss of performance.

A full range of 33cm (13") brushes and pad drives allows the machine to be used for all of the primary floorcare functions.

With a total weight of only 18Kg and an operating speed of 200rpm the machine literally exudes convenience and versatility. Fast and user friendly like never before.

Multi Deck NPR151 150RPM
NPR1530 300RPM

The MultiDeck 450 rotary polisher is sound, well engineered, basic floor maintenance, everything that you would expect from a machine tried, tested and still going from strength to strength after 20 years.

Whether you want to polish, scrub, shampoo or strip, or a little of all of these. Be it with bristles or pads, just select the specification to suit your needs and let the machine do the rest, not just today and tomorrow, but year after year. A truly sound professional base to any floor maintenance programme.

Options include: solution tank, scrub ring, vacuum unit, scrubbing brush, pad drive and spray cleaner unit.

**NuSpeed Xtra NRS450**

Here is a polisher that uses all the increase in power and performance to provide outstanding results.

When the need is for highly polished, high profile flooring there is no substitute for this Xtra 450rpm machine that provides the perfect combination between handling characteristics and exceptional results.

Plenty of power, easy to use, no wheels on the floor and a selection of burnishing brushes and pad drives that will produce excellent results. The combination of weight and speed produces almost the optimum thermal conditions for Hi-Shine floor treatments.

Add to this the easy storage system, the smart holding handle system allows the machines to be stored flat against the wall on it’s back, and you have perhaps the most useful high performance machine on the market today.

**NuSpeed Ultra NRUSU1500 Burnisher**

The NuSpeed Ultra is unique in many respects, providing a burnishing machine that automatically adjusts to varying floor conditions whilst in use and that can easily be manoeuvred in even the most restricted areas. The floating pad drive conforms to undulating floors and even novice operators can use this machine safely.

If it’s high lustre polish or wet look surfaces you are after then look no further. The Ultraflo incorporates our unique automatic floating head pad drive allowing a totally consistent performance between pad and floor. By virtue of increased power and pad pressure applied, a significant advance in the surface temperature is achieved substantially improving the polishing results.

NuSpeed Ultra 1500 is used in a straight line enabling large areas of the floor to be covered fast.

NUMATIC FLOOR SCRUBBERS

Twintec Electric TT1535S
There is an old saying that “small can also be beautiful” and this is particularly true when having to clean floors quickly and effectively in small and sometimes restricted areas.

The 1535 cable machine has been expressly designed to be compact, easy to operate and exceptionally manoeuvrable when in use whilst the oversized transit wheels allow easy movement to and from any specific locations.

The cylinder power brush ensures deep cleaning performance whilst the twin water pickup nozzles either side of the brush roll permit multidirectional operation, which is vitally important when cleaning narrow walkways often found in shops and food stores. With the 1535 you can walk in forwards and reverse out backwards without turning and without loss of scrubbing and drying performance.

Code: VACMULTI20

AERO25-21
1400 watt motor. 25 litre capacity. Take paper bags if required. Wet to dry to wet function without changing filter. Single phase power outlet for electric tools (e.g. sanders). 2.5 metre hose.

Code: VACAERO25-21

ATTIX30-21XC
1500 watt motor. 30 litre tank capacity, paper dust bags available if required. Wet to dry to wet function without changing filter. Xtreme clean filter system. Single phase outlet with auto on/off function for electric and pneumatic powered tools. 5 metre hose.

Code: VACATTIX30-21XC

ATTIX30-01PC
1500 watt motor. 30 litre tank capacity. Electric single phase outlet with auto on/off function for tools. 3 metre hose. Washable wet and dry, filter with push and clean semi auto filter cleaner.

Code: VACATTIX30-01PC

ATTIX50-21XC
1500 watt motor. 47 liter tank capacity with single phase outlet with auto on/off function. Revolutionary self cleaning Xtreme clean filter system (gib board dust, concrete slurry). 4 meter hose.

Code: VACATTIX50-21XC

ATTIX995-0M/H SD TYPE 22
2 X 1500 watt motors coupled to Xtreme clean technology and intrinsically safe in explosive dust environments such as sugar, flour, and fine MDF dust. Auto filter cleaning and vertically unblock able. 50L tank.

Code: VACATTIX9950MHSD
INDUSTRIAL VACUUMS

**NTD720-2**
If the vacuuming is tough, start here. With the Structofoam motor housing, steel body mounted on a steel chassis and large transit wheels, this machine is built to take it on. Two dry filers are standard and the dust bags ensure that goes in stays in. Dry use only.

Code: VACNTD720-2

**NTD2003-2**
The combination of Structofoam and stainless steel is a standard very close to our engineering hearts and this is never more obvious than in our classic NTD-2003 Industrial. Here you have a big capacity machine; a powerful Structofoam; Twinflo two motored power head, giant shakeable filter system, stainless steel container and heavy-duty transit chassis. Designed to give good results - year in, year out. Dry use only.

**NTT2003-2**
This is an ideal machine to be coupled to a separate tank for bulk pick up. This machine has as much power as possible to fit into a single vacuum with 3 twin flo bypass motors as standard. Cyclonic entry, stainless steel tank on the rugged steel chassis. Container easily demounts for emptying, and is cyclonic and stainless steel. The hose connector allows for a full range of accessories from 38mm to 51mm, and 76mm. Dry use only.

Jet Steam Professional (Continuous)
The Jet Steam Professional is supplied with an impressive range of accessories to take on most any cleaning task using the 94% dry 155°C steam available at up to 65psi variable pressure. This machine can run 24/7, 365 days a year without depressurising the boiler. No waiting for reheat every 4 hours of use, due to leading edge technology which pumps water from a reserve tank to boiler. The machine can be used continuously just by checking if this reserve tank is full. For the cleaning professional who is environmentally aware, Optional trolley available.

Jet Steam Professional Maxi 8 Bar
180°C (130PSI) with super heated hot water injection - All the continuous features of the Jet Steam Professional but with twice the pressure, and hotter. Add the water injection feature super heated from the boiler into the steamline and you have - “One Outstanding Machine, with serious cleaning power”.

Jet Vac Junior - (Continuous)
Our newest steam vac machine with continuous technology. Tool kit star for use with vacuum and steam only tools. It is able to clean almost anything. Inbuilt trolley, 1200 watt water filter vacuum, 3 liter reserve water tank, powerful 6 bar steam and 165 degree with hot water injection and a fast 4 minute heatup from cold.

Jet Vac Major 4800 (continuous)
3600watt. Features continuous steam as per the Jet Vac Professional. 2 x 15 litre chemical / water tanks. Higher temperature 170°C. Optional 3 phase available. 190°C at 10 bars pressure. An industrial grade unit for demanding situations.

Jet Vac Major 12100 (3 phase)

Thermaglide Mop System
Mark1: Attached to the Hi temp steam machines to provide thermal moping to walls, ceilings, & floors
Mark2: the more advanced system with telescopic pole with integrated switches eliminating the need to switch steam levels back at the machine.
Mark3: This fits onto the steam only tool kit, providing flat mopping with economy on the hexagonal shaft system.

Just looking... at Steam Cleaning
Sanitation with high temperature steam has been proven the fastest and most effective killer of bacteria known to man. Documentation on tests show steam to be nine times faster than chemicals and to be killing all strains of bacteria including super bugs such as VRI and MRSA. The potential for steam to play a greater role in healthcare is becoming realised and taken advantage of by forward thinking infection control officers.

Ask for your demonstration using a high temperature steamer. An optional steam mop (40cm) is available for most models.

Get the Steam Advantage!
The Duplex Machine Range

For years the Duplex commercial floor scrubbers have been regarded as the “worlds most versatile floor cleaners”. Due to the true multisurface nature of these machines, these compact units can eliminate or reduce the need for mops, buckets, deck scrubbers, polishers, chemicals, and carpet extractors. Clean right up to the edge with easy one handed operation even cleans both forward and reverse. These machines well deserve their “Green” rating in reducing or eliminating chemical from the cleaning process, and also far less water use.

Duplex Scrubbers - 340, 420, 620
Multi surface floor machine. A revolutionary design in floor cleaning enabling one machine to replace the functions of carpet cleaner, floor scrubber and upright vacuum. (Optional polishing brushes and transport trolley available. Uneven surfaces that make for difficult cleaning on a regular basis are easily cleaned using a Duplex machine with just water! Twin counter rotating brushes, full height adjustment and solution control – seeing is believing. 3 models to choose from 340mm, 420mm and 620mm scrub widths. Request an obligation free demonstration today and make your floor cleaning a walkover. Optional Steam Tanks take floor hygiene to new levels!

Code: SCRUBBER340
Code: SCRUBBER420
Code: SCRUBBER620

Duplex 280
The new super compact Duplex 280 has the tried and proven dual contra rotating cylindrical brush design, two way handle and offset brush design of the large commercial models (340, 420, 620). The enables the Duplex 280 to effectively scrub, wash and dry all types of floor, all in a single pass.

Code: SCRUBBER280

Duplex 350 Escalator
Designed exclusively to clean escalators with cooperation from Europe’s leading escalator manufacturers. The Duplex 350 is easy to use and takes escalator hygiene to new levels. Demonstration is essential to valuation. A proven effective system for cleaning escalators right into the deep grooves. Easy and light to handle, patented location system means anyone can control this machine.

Code: SCRUBBER350

Just looking... for a way to clean all your floors that is easy and effective, in one compact machine?

Twinner Manual Sweeper
A quick and effective way to removing rubbish, soil, sand and other debris from all indoor and outdoor hard surfaces.

Benefits:
- The side brushes enable the sweeper to easily clean along edges of walls or shelving
- Large dirt collector that can easily be emptied
- No strain on your back with an adjustable handle
- Compact for moving around confined areas
- Does not require an extension cord or power
- Lightweight for lifting and storage
- Step-climbing ability due to rear running wheels
- Height-adjustable sweeper roll (for fine and large debris)

Just looking... for new ways to effectively clean and sanitise?
Kill all germs and clean with a Cleanmaster Jet Steam Professional, see page 72.

**Stolzenberg Machines**

These machines feature the TRS twin brushing system - The Tandem Roller System. All debris pass underneath the centre mainbroom are collected up to bottle size while dust and sand are being swept up as well. The slight vacuum created by the two roller brushes allows flat items like paper to be collected. the dust container is able to be filled from the top allowing 80% use of the capacity. 2 main brooms give 100% sweeping performance even with brushes worn up to the limit.

**Tandem KSE 910**
Battery sweeper with self drive traction featuring 60 litre capacity auto filter shaker vacuum dust control. 3600 square metres/hour productivity.

**Tandem KSV 910**
As above but with 4 stroke Honda petrol engine.

I/We agree that your Terms of Trading are payment on the 20th of the month following the month of invoice and such payment will be made for goods or services supplied to us or any other monies owed under this Credit Application.

We agree also:
1. That you have the right to charge interest on all outstanding monies up to 2.5 percent per month.
2. Any costs incurred in collection of overdue accounts will be for our account.
3. Ownership of property, in any goods purchased under these credit terms will not pass to the buyer until full payment has been received by you.
4. We have read and understand the attached Terms and Conditions.

Please print full name: ____________________________

Date: ____________ Signature: ____________________ *(Proprietor/Partner/Director)*

**For Limited Companies**

As a Director(s) of the above company, I/we jointly and severally accept liability for credit extended on this Credit Application and we undertake to pay for all goods or services supplied by you if the company fails to meet its obligations under this Application.

Date: ____________ Signature: ____________________ Designation: ____________________
GENERAL TERMS AND CONDITIONS

In these terms of trade unless the context otherwise requires the “Company” means Frontline Cleaning Supplies and its assigns.
In these terms of trade unless the context otherwise requires the “Buyer” means the legal entity described as “Legal Entity Name” as identified on the front of this form.
The buyer shall not change the Buyer’s name without giving the Company at least seven (7) days written notice.
All good sold by the Company to the Buyer are sold subject to these terms of trade.
These terms of trade may be modified in writing by agreement between the General Manager or Director of the Company and the Buyer as defined above.
In these term of trade unless the context otherwise requires the term “Guarantor” means the Principal Shareholders and Directors of the Buyer where the Buyer is a limited liability company.

PAYMENT
Payment of the goods is due on delivery and shall be paid in cash unless the Company has agreed otherwise with the Buyer in writing.
Payment for the goods shall be made in full and without set off and within the terms agreed between the Company and the Buyer. The Company reserves the right to charge interest on any amounts unpaid in terms of the agreed terms of payment between the Company and the Buyer at the rate of 2.5% for the first and for each and any subsequent calendar month or part thereof that any amount due for payment remains unpaid.
Failure by the buyer to make payment to the Company on due date will constitute a default under these terms of trade and the Company will be entitled to immediately exercise all or any of its remedies in respect of the default.
Disputed accounts: - If any account is in dispute the undisputed portion of the account shall be payable in accordance with the normal terms of trade as provided in the terms of trade document.
Receipt by the Company of any cheque shall not be deemed to be payment until the cheque has been honored and cleared by the Company’s bankers.
The Buyer agrees to pay the Company’s debt collection agency costs and/or costs and expenses on a solicitor client basis incurred by the Company as a result of the failure of the Buyer to pay in full the Buyers account with the Company in accordance with these terms of trade.

PRICES
Goods are sold and will be invoiced at the price charged by the Company at the date of dispatch unless a prior agreement has been made regarding price.
All prices are subject to change without prior notice.
All prices are subject to Goods and Services Tax and any other taxes or duties that may apply.

DELIVERY AND ACCEPTANCE
On receipt of delivery the Buyer shall sign the Company’s delivery manifest/delivery documents accepting delivery of the goods. Any variation between the goods delivered and those detailed on the invoice shall be recorded on the Company’s manifest/delivery documents/debit/credit form.
The Company shall not be liable or responsible for any loss, damage or expense incurred by the Buyer as a result of non-supply or delay in the dispatch or delivery of the goods. The Company may deliver the goods by instalments.
Without affecting the company’s other rights, the Company may suspend supply and delivery of the goods to the Buyer is the Buyer is in default in making payments due to the Company.
Where the Buyer has allowed the Company access to premises to make delivery the Company will not be liable for any loss or damage occurring as a result irrespective of fault or whether the Buyer was present.
Where the Buyer has allowed the Company to deliver to unattended premises or in circumstances where they are otherwise unable to sign the manifest/delivery documents, then the Buyer accepts that they will be liable under this agreement to the same extent as if they had signed the manifest/delivery documents. The Company’s staff member will sign the manifest/delivery document and this will be accepted by the Buyer as Proof of Delivery.
Delivery charges will be paid by the Company on all orders delivered over the value of $350 in Auckland City, and over the value of $500 to out of town areas. Pukekohe area delivered free of charge. Dangerous goods attract specialty rates due to Government Regulations.

OWNERSHIP/RECOVERY OF GOODS
Prior to the Buyer paying in full for all goods supplied to the Buyer by the Company, ownership of any such goods will remain with the Company. If the Buyer fails to pay on the due date or breaches these terms, or is placed in receivership or liquidation or enters into a composition with its creditors, the Buyer authorizes the Company to enter any premises to recover goods owned by the Company. The Buyer will indemnify the Company for any losses or costs the Company incurs in recovering such goods. If the premises are those of a third party, the Company may enter and recover the goods as the Buyer’s agent. The Company will be entitled to sell any goods held by the Company and apply the proceeds towards the amount owed by the Buyer if the Buyer failed to pay any amount if the Buyer on-sells any goods (supplied by the Company) before ownership has passed to the Buyer, the proceeds of such sale shall be received and held by the Buyer in trust for both the Company and the Buyer. The Buyer's interest as beneficiary under that trust shall be that portion of the proceeds which does no exceed the Buyer's indebtedness to the Company. The Company's rights in this clause are in addition to its rights to take recovery action by way of the issues of Court proceedings for any amounts unpaid under these terms of trade.

RISK
Risk in the goods shall pass to the Buyer when the goods are delivered to the agreed place of delivery.
No claim for the damage to the goods delivered or claim regarding the goods, including invoicing and delivery will be accepted by the Company unless notified to the Company within 48 hours of delivery date.
RETURNED GOODS POLICY
If the Company misinterprets a Purchaser's order, the Purchaser may return the goods for full replacement, provided the goods are in good condition and the error is reported to the Company within 7 days after delivery of goods.
The company will replace or give credit for the defective goods but only if the following procedure is followed:
A written claim must be received by the Company within 7 days after delivery of the goods.
The claim must quote the Company's invoice or packing slip number and must specifically identify the defect and, where possible, be accompanied by a sample of the defective goods.
On approval of the claim the Company will issue a Return Authorisation detail of which is to be attached to the goods when returned. Under no circumstances will the Company pay for any freight which has not been authorised by the Company.

SALE OF BUSINESS/ALTERATION OF BUSINESS
These terms of trade are an exclusive contract between the Company and the Buyer to facilitate the supply of goods by the Company to the Trading Business as named on this form.
If there is any change to the Buyer's beneficial ownership of the Trading Business the Buyer must notify the Company in writing of the details of any change, including relevant details of the change in ownership and the date of the ownership change.
The Company will then arrange for a new terms of trade form to be completed and evaluated.
Failure by the Buyer to notify the Company of any change in the beneficial ownership of the Trading Business owned by the Buyer will result in the continuing liability and guarantees of the Buyer as set out in this terms of trade document for the ongoing supplies to the Trading Business, after the date of the change in beneficial ownership of the Trading Business and up to the point in time that the Buyer formally advises the Company of the change in beneficial ownership.
When the business is sold, payment of all outstanding monies should be paid on due date, settlement date, or within ten days of change of ownership, whichever occurs first.
The Buyer shall not change the Buyer's name without giving the Company at least seven (7) day written notice.

SECURITY INTEREST
The Buyer agrees that, for the purposes of the Personal Properties Security Act 1999 ("the PPSA"), the Company has a security interest in the goods supplied by the Company to the Buyer (as detailed) in each invoice supplied to the Buyer as well as the proceeds of such goods. The Buyer agrees to sign any document required for the Company to perfect the Buyer's security interest under the PPSA and authorise the Company to sign any such documents as the Buyer's attorney.

CONTRACTING OUT OF THE PPSA
To the extent permitted under the PPSA the Buyer agrees to waive rights as debtor. In particular, but without limitation, the Buyer agrees to waive the Buyer's right to receive a copy of the verification statement confirming registration of a financing statement or a financing change statement relating to any security interest the Company may have in goods supplied to the Buyer from time to time.

GOODS
The term "goods", as used in these terms and conditions, means all personal property supplied by the Company to the Buyer from time to time, together with the proceeds of such goods and includes: frozen, chilled and dry foodstuffs, packaging and paper products, plastic utensils, all goods and/or services which are described on any invoice, delivery docket or order form, all inventory.

MATTERS BEYOND THE CONTROL OF THE COMPANY
The Company is not responsible for any defect, failure or delay resulting from the provision of goods, or the acts or omissions of any third party. In addition, the Company is not liable for any defect, failure or delay in providing goods, or for any loss, damage or deterioration to any goods delivered to the Company, were the same arises due to a cause beyond the Company's reasonable control. In no case will liability extend beyond the value of the goods supplied.

CONSTRUCTION
Any contract containing these terms of trade shall be deemed to be a Contract made in New Zealand and shall be governed by New Zealand Law.

PRIVACY ACT
Under the terms of the Privacy Act (1 July 1993) the Buyer authorises any person or Company to provide the Company with such information as may be required by the Company in response to the Buyer's credit enquiries. The Buyer authorises the Company to furnish any third party details of this terms of trade application and any subsequent dealings that the Buyer may have with the Company.

CONSUMER GUARANTEE ACT (CGA)
Where these terms and conditions would otherwise be subject to the CGA the Buyer agrees that the Buyer is acquiring the Goods for business purposes and that the CGA does not apply to the supply of Goods to the Buyer.
If the Buyer is a Consumer as that term is defined in Section 2 of the CGA and the Buyer has not contracted out of the CGA under Clause 24.1 of these terms and conditions, nothing in these terms and conditions will limit any rights the Buyer may have under the CGA.

ACKNOWLEDGEMENT
The Buyer acknowledges that it has received a copy of this terms of trade document and in particular that this terms of trade document constitutes a “Security Agreement” for the purpose of the PPSA.
The Buyer acknowledges that the provisions of clause 5 (OWNERSHIP/RECOVERY OF GOODS) are intended to create a Purchase Money Security Interest in such goods and acknowledges that the Company may register a Financing Statement or Financing Change Statement under the PPSA in the Personal Property Securities Register in respect of this Terms of Trade document.
